## photography

Baseline is equipped to cater to a wide range of photographic needs. Including specialist vehicle and product shots. These can be done in our own studio or on site. We can also provide clients with access to extensive photo libraries. We are well equipped to make creative use of supplied material – with top-end scanning technology and photo-enhancing software. Our production department can work with digital, film, or transparencies and are happy to offer advice on the best photographic option for specific customer needs.
