

large format printing

large format printing

For those who need to get their message across on a grander scale, Baseline produces a variety of large format display printing options. Display prints are available in widths up to 1300cm by just about any length your project requires.

Available standard substrates include paper, polyfilm, backlit, vinyl and canvas, depending upon your specific application. Prints can also be tiled together to make an even larger statement. Large format printing is perfect for banners, directional signage, event graphics, trade show displays, business presentations and much more.
